It's Acid-Stomach That Makes Millions Sick and Suffer

You know what seld-mouth does to the teeth and gums-how the acid literally eats through the hard enamel, causing the teeth to ache and decay. Just imagine, then, what have Acid-Stomach must create throughout the mitirs bed?

Hillions of people are weak and unfit, suf-fering all the time, in one way or another, from Acid-Stomach,

from Acid-Stomach.

They don't seem dangerously sick. Just ailing. Going through life weak, listless, dragging one foot after another. They're nervous and irritable; lack power and punch, frequently have severe attacks of blinding, splitting headaches; subject to fits of melancholia and mental depression. And nearly always their stomachs are out of order, even though many experience no actual stomach pains—digestion poor—never getting anywhere near the full strength from their food.

Acid-Stomach interferes with digestion. It causes the food to ferment. This fermentation creates gas, sometimes causing painful

bloating and beiching, food-repeating, heart-burn, etc. Serious consequences often follow, such as gastritis, dyspepsia, autointoxication. Also to the same source—Acid-Stomach—may often be traced cases of catarrh of the stometh and intestines, cirrhosis of the liver, valvular heart trouble and heart failure.

The secret of good health is to get rid of Acid-Stomach—put the stomach in such perfect condition that every mouthful of food you eat will be perfectly digested and assimilated. A modern remedy called EATONIC does this quickly, easily and naturally.

Absolutely harmless. Nothing but beneficial results can follow their use. The testimonials of thousands who have used EATONIC are so enthusiastic as to seem almost beyond belief.

Your druggist has EATONIC and is authorized to refund your money if you are not satisfied.
